REPORT
OF THE
COMPTROLLER OF THE TREASURY
OF THE
STATE OF MARYLAND

TREASURY DEPARTMENT, COMPTROLLER'S OFFICE,

ANNAPOLIS, MD., December 12th, 1911.

To the Honorable, The General Assembly of Maryland:

It becomes my duty, as well as pleasure, to submit herewith my annual report for the fiscal year ended September 30th, 1911, as required by Section 9 of Article 19 of the Code of Public General Laws of Maryland.

RECEIPTS.

The total gross receipts of the Treasury proper during the fiscal year as shown in Statement "A" were \$8,706,493.45, to which must be added the cash balance on hand September 30th, 1910, amounting to \$875,111.16, making an aggregate of \$9,581,604.61, or by far the largest amount ever received into the Treasury for a like period.

Some elucidation, however, is necessary in order to properly understand these largely increased receipts. Otherwise you might be misled into supposing these figures were the actual working cash in the Treasury applicable to all demands thereon. Such is not the case, however, for these are certain revenues distinctly set apart for specific purposes and must be used for those only, viz: moneys arising from the sale of bonds, taxes collected for public schools, sinking funds, etc., which form a very large part of our receipts.

I therefore desire to submit herewith a statement showing those dedicated funds, the deduction of which will give you at a glance the actual revenue of the State from which must be paid all governmental expenses and all appropriations of every character, viz:

Total receipts for the year.....		\$8,706,493.45
Less direct tax from Collectors.....	\$1,779,251.22	
Less direct tax from Incorporated Institutions.....	157,615.10	
Less direct tax from Baltimore City Stock....	63,350.55	
Less State Roads Loan.....	1,837,916.97	
Less State Insane Hospital Loan.....	602,673.50	
Less Sanatorium Loan.....	94,452.00	
Less Public Highways Loan of 1910.....	256,293.50	
Less High Liquor Licenses, Baltimore City...	1,125,832.85	
Less Receipts of Oyster Fund.....	48,366.11	
Less Interest on the Public Debt.....	12,459.16	
Less Motor Vehicle Licenses.....	75,000.00	
Less Maryland Agricultural College.....	3,478.30	
Less Maryland Hospital for the Insane.....	1,254.97	
Less Springfield State Hospital.....	346.01	
		<hr/> 6,058,290.24
Total for 1911.....		\$2,648,203.21

being an increase over the year previous in round figures of only \$63,000. Hence it becomes apparent that our revenues subject to the ordinary expenses of the government show only a slight increase, and represent the limit beyond which appropriations cannot be made without embarrassment to the Treasury.

DISBURSEMENTS.

A careful perusal of Statement "B" is respectfully invited because therein is shown in detail all the payments by the State, exclusive of the Funds account, and the Acts of Assembly authorizing the same, together with the amounts so paid, aggregating \$8,110,083.97, or the largest sum of money ever handled in the Treasury and yet leaving a cash balance on hand at the close of the fiscal year of \$1,471,520.64. These unprecedented payments were made by reason of, and on account of large bond issues for State Roads, Hospitals and the return of three-fourths of the revenues from High Liquor Licenses to Baltimore City. Against this large cash balance, however, of \$1,471,520.64, there must be charged certain definite and specific accounts, and I desire to submit herewith a statement

showing the actual working cash in the Treasury on October 1st, 1911, to wit:

Balance in Treasury September 30th, 1911..		\$1,471,520.64
Due Public Schools and Free Books.....	\$701,911.97	
Due State Insane Hospital Loan.....	124,208.00	
Due Motor Vehicle Licenses.....	37,181.98	
Due Tobacco Warehouse Fund.....	27,456.12	
Due Sanatorium Loan.....	19,452.00	
Due Public Buildings Loan.....	3,451.56	
Due State Loan of 1902.....	194.26	
Due Oyster Fund.....	121.05	
		<hr/>
		913,976.94
Balance applicable for ordinary ex- penses on October 1st, 1911.....		<hr/>
		\$557,543.70

Do not be misled by this large balance. On October the 10th, there was paid \$465,125.00 to Public Schools, Approved High Schools, and for Text Books, while the first quarterly apportionment of all the ordinary appropriations became available on the first day of October and were largely paid. Therefore the greatest care should be exercised by the General Assembly in enacting future appropriations, in order that the same shall always be kept within the revenues of the State.

SINKING FUNDS.

In Statement "E" are shown in detail the operations of the funds account during the fiscal year, and since it became necessary to create a sinking fund for each of the three new loans, viz: State Insane Hospital Loan, Public Highways Loan and the Sanatorium Loan issued in pursuance of the Acts of the last General Assembly, for your information I beg to submit herewith the following condensed statement of the amount of bonds purchased for the several Sinking Funds, to wit:

SINKING FUNDS.

Sinking Funds.	Consolidated Loan of 1899
General Sinking Fund	\$5,000.00
Consolidated Loan of 1899.....	101,750.00
State Building and Improvement Loan.....	14,150.00
State Loan of 1902.....	16,000.00
Public Buildings Loan.....	24,000.00
State Roads Loan.....	200,000.00
State Insane Hospital Loan.....	30,000.00
Public Highways Loan of 1910.....	10,000.00
Sanatorium Loan	5,000.00
Total.....	\$405,900.00

Every dollar to the credit of these funds has been invested, to the amount of \$405,900.00 as above shown, in the State's own bonds, so that the fiscal year closed without any moneys being carried over into the next fiscal year uninvested.

In Statement "F" you will find the amount and character of the bonds held by the several sinking funds, aggregating \$5,117,379.72, a sum nearly equal to one-half of the *gross* debt of the State of \$10,428,926.13. The character of these investments is well worthy of mention for out of the State's holdings of \$5,117,379.72, the State's own bonds amount to \$4,754,379.72, while the remaining \$363,000.00 are County and Municipal bonds of our own Commonwealth.

STATE DEBT.

In Statement "J" you will find the gross funded debt of the State to be \$10,428,926.13, as against \$7,529,926.13 for the year previous, or an increase of \$2,899,000.00, viz:

State Roads Loan, balance of Series "C".....	\$949,000.00
State Roads Loan, Series "D".....	1,000,000.00
State Insane Hospital Loan.....	600,000.00
Public Highways Loan of 1910.....	250,000.00
Sanatorium Loan	100,000.00
	<hr/>
	\$2,899,000.00

Against this gross debt of \$10,428,926.13, there must necessarily be credited the bonds in the sinking funds and the other securities therein mentioned, aggregating, as the par value

thereof, \$6,693,849.72, leaving the net debt of the State at the close of the fiscal year to be \$3,735,076.41. A conservative valuation, however, upon the State's holdings in the stock of the Annapolis Water Company, Farmers National Bank of Annapolis and the annuity of the Northern Central Railway Company, would rather place those securities nearer to \$2,325,000.00 than the price at which they are carried, viz: \$1,576,470.

In said Statement "J" you will observe that the Consolidated Loan of 1899, aggregating \$3,253,926.13, as authorized by Chapter 219 of the Acts of 1898, matures in 1914, January 1st. There is now to the credit of this loan in its sinking fund, bonds amounting to \$2,958,229.72 so that the sinking fund securities will virtually carry this loan to maturity. It will be necessary, however, that provision be made to exchange the State's bonds of other loans held in this fund by refunding the debt to this extent and transferring these State Bonds to their respective sinking funds.

NEW ASSESSMENT.

In Statement "K" you will find the assessed value of property for State Levy for 1911, together with the State Tax of 22 cents on each \$100, the former aggregating \$951,926,271, and the tax producing \$2,094,237.80. The new assessment of 1910 increased the basis from \$836,665,067, in 1910, to \$951,926,271, in 1911, or an increase of \$115,261,204, despite the fact that several counties, viz: Garrett, Kent, Cecil and Talbot levied and collected the 1911 levy on the old basis of assessment. Therefore, those counties do not show the new basis, but the old. Had those counties completed their assessment as required by law, the present basis would be much larger, and the State and counties would have derived the benefits accruing therefrom. Such a course was not fair or equitable to the other counties and the local taxing authorities of such delinquents are guilty of gross laches in not being more expeditious in the performance of their duties.

To show how the State has developed in material prosperity, I beg to submit herewith a statement giving the assessable basis

of the State under the last three assessments, viz: 1877, 1897 and 1911, together with the old basis of 1910.

Totals.....	\$478,468,028	\$607,965,272	\$836,665,067	\$951,926,271

A careful study of the above statement will be found both interesting and instructive, stating clearly as it does the increased valuation by counties and the city of Baltimore for the past 44 years. The State, as a whole, has practically doubled its basis within that period, the city of Baltimore having increased 108 per cent., while the largest increase in any county is shown by Caroline, 163 per cent.

PUBLIC SCHOOL TAX.

The receipts and disbursements on account of public schools will be found in detail in Statement "L," the total sum dis-

tributed being \$1,303,855.00, or a sum less by \$107,835.86 than the year previous. In that year, while the State tax for public schools was only 12½ cents on each \$100, nevertheless the Legislature of 1908, Chapter 254, made a direct appropriation of \$206,250 in addition thereto, in order that no loss of revenue should occur. This heavy charge against the Treasury proper, however, could not be maintained in justice to other demands upon the State. Therefore, the last General Assembly, with wisdom, in my judgment, fixed the State school tax for the year 1911 at 16⅓ cents, producing a sum sufficient to maintain a generous revenue, more than ever before, when its full effect will be in force. This was not possible during the fiscal year just closed, because the school year ended on June 15th, at which time the Comptroller is directed to make his fourth or final school distribution, and since the counties did not make returns into the Treasury under the new levy until long after that period, viz: August, September and October, the school year ending June 15th, 1911, could not therefore reap the benefit of such collections. Hence, the large balance brought down October 1st, 1911, \$701,911.97, for which the schools received due benefit on October 10th, by a disbursement of \$465,125.00, the largest sum ever disbursed at this period.

In my judgment, the General Assembly should not decrease this tax but let it remain as it is because it will afford a definite basis upon which the school authorities of this State may rely and under the new increased basis of assessment will yield a most generous support.

OYSTER FUND.

The condition of this fund will be found in Statement "H," the receipts being \$58,386.66 with an expenditure of \$58,265.61, leaving a cash balance on hand of \$121.05. This does not represent, however, the true condition of this fund as to its expenses, for the reason that the revenues accruing to the same during the fiscal year were not sufficient for its maintenance and has been a source of much embarrassment to the Treasury officials. Consequently, the salaries and necessary expenses of the State Fishery Force for the months of July.

August and September could not be paid until after the revenues were received into the Treasury from the next fiscal year. Had the moneys come into the Treasury from the general measurers and inspection tax which we had every reason to believe would be received, all these demands would have been promptly met. Under the Act of 1910, Chapter 735, a tax of two cents per bushel was laid upon oysters as a tax to pay for the expense of inspection and for the purposes of reselling; a small portion of this tax was collected, but in a suit instituted by D. E. Foote & Company against my predecessor, the Court of Appeals declared the Act unconstitutional in so far as it provided for the collection of a tax for reselling. I proceeded under the Act of 1910, Chapter 413, to collect the tax of one cent per bushel provided by said Act for the payment of inspection of oysters and the same plaintiffs endeavored again to enjoin the collection, claiming said Act was also in violation of the Constitution of the United States. The validity of this Act was sustained by the Court of Appeals but the plaintiffs are pressing an appeal to the Supreme Court. The effect of this controversy has been to prevent the collection of this tax upon which alone depends the payment of the inspectors, except by distraint proceedings against each delinquent; all the large oyster packers having, it appears, determined to oppose the payment of the one cent tax. It is also to be borne in mind that oyster buyers and sellers claim a return of the one cent per bushel for the reselling fund which was held by the Court of Appeals to be unconstitutional, which claim I could not recognize, as the remedy is in the Legislature. By the Act of 1910, Chapter 413, which was sustained by the Court of Appeals, one-half a cent per bushel is collected by the buyers from the sellers who receive it for the State and the buyer is taxed another one-half cent, which makes the one cent tax. When I came into office I found a very large sum unpaid. I readjusted the tax at one cent and forced the collection, but, as above stated, the oyster packers attempted to enjoin me and not only attempted to get out of the payment of their one-half cent tax but to retain the one-half cent they had in their pockets belonging to the State.

I declined to compromise the rights of the State, directed the collecting attorney, in whose hands my predecessor had placed the accounts, to press by distraint, and other suits being instituted by attorneys who claimed to represent all the large oyster packers, I turned over all matters of law to the Attorney-General, who is representing us and I am entirely satisfied taking care of the rights of the State.

I recommend a careful consideration of this matter by your honorable bodies and the oyster question generally, with a view to insure the prompt payment of this tax, which seems to be necessary to enforce the system of inspection and the protection of the oyster beds.

TAX ON FOREIGN CORPORATIONS.

Section 68 of Article 23 of the Code of Public General Laws provides that "every foreign corporation which has a usual office or place of business in this State, except insurance companies, hereinafter provided for, but including any corporation which is engaged in this State permanently or temporarily and with or without a usual place of business therein * * * * shall, before doing business herein, file with the Secretary of State, who shall record the same (1) a certified copy of its charter or certificate of incorporation" and then follows the enumeration of certain statements required to be made, among which is the following "and the amount of capital employed in this State."

Section 70 of said Article further provides that every foreign corporation, except certain companies therein exempt, "shall at the time of filing its annual certificate, to wit, before the first day of April in each and every year, pay to the State Treasurer, for the use of the State, a franchise tax for such year at the following rate, that is to say, the sum of twenty-five dollars for every full fifty thousand dollars of capital employed by it in this State up to five hundred thousand dollars, but in no case less than twenty-five dollars; if the amount of such capital is more than five hundred thousand dollars and not more than five million dollars, then an additional amount equal to one-fortieth of one per cent. on the excess; and if more than five

million dollars then an additional amount at the rate of thirty dollars for every million dollars of such last-named excess."

From the foregoing you will observe that said companies are required to pay the tax to the State Treasurer before the first day of April in every year and if not paid by the first day of November following, it becomes obligatory upon the Comptroller, under Section 71, to place said bills in the hands of the Attorney-General for collection by suit, but the statute nowhere provides any mode by which the Comptroller is advised of the amount of capital employed by such companies within the State and only through the courtesy of the Secretary of State in transmitting such information to this office has the Comptroller been enabled to enforce the collection of this tax. In my judgment, this statute should be so amended that at the time of the filing of their certificates with the Secretary of State they should be required to also file a like certificate with the Comptroller, setting forth the amount of capital employed within the State, in order that the Comptroller should have in his own office proper returns upon which to base the tax. Further, I deem it important that additional powers be granted to him whereby he may be able to call for and enforce supplemental reports, if necessary, in order that the actual amount of capital so employed be ascertained. As the statute now stands, the Comptroller is required to collect this tax without any provision whatever being made for any returns to his office upon which this tax is to be based, and as a matter of fact, it is possible for the largest foreign corporations doing business in this State with visible property of hundreds of thousands of dollars to make a return of only five thousand dollars of capital employed and therefore pay a tax of only twenty-five dollars, while several large foreign corporations employed in Maryland return no capital at all.

Again, the statute further provides that this tax of twenty-five dollars shall be levied upon "every full fifty thousand dollars of capital employed by it in this State." Therefore, if the capital employed be \$99,999, the tax is only twenty-five dollars, or no more than if the capital employed were fifty thousand dollars. In my judgment, this provision should be so amended as to read "at the rate of twenty-five dollars for every fifty thou-

sand dollars of capital employed," thereby subjecting the actual amount of capital employed to the operations of this tax. Domestic corporations are required to pay taxes upon actual values, therefore why should there be any discrimination against them in favor of foreign corporations?

EXCESS OF FEES OF OFFICE.

Section 1 of Article 15 of the Constitution provides that "every person holding office created by or existing under the Constitution or laws of the State (except justices of the peace, constables and coroners), or holding any appointment under any court of this State, whose pay or compensation is derived from fees, or moneys coming into his hands for the discharge of his official duties, or in any way growing out of or connected with his office, shall keep a book in which shall be entered every sum or sums of money received by him, or on his account, as a payment of compensation for his performance of official duties, a copy of which entries in said book, verified by the oath of the officer by whom it is directed to be kept, shall be returned yearly to the Comptroller of the State for his inspection and that of the General Assembly of the State, to which the Comptroller shall, at each regular session thereof, make a report showing what officers have complied with this section; and each of the said officers, when the amount received by him for the year shall exceed the sum which he is by law entitled to retain as his salary or compensation for the discharge of his duties, and for the expenses of his office, shall yearly pay over to the Treasurer of the State the amount of such excess, subject to such disposition thereof as the General Assembly may direct."

Under the provisions of the above Article of the Constitution, I beg to call your attention to the statistical reports of the clerks of courts, registers of wills, State's attorneys, notaries public, etc., contained in Statements "A," "B," "C," "D" and "E," and invite your careful perusal of the same. With one exception, and that you will find in Statement "A," every officer has complied with this provision of the Constitution, whereby he is yearly compelled to pay over to the State the excess of fees of his office over and above his constitutional salary and the necessary expenses of his office, retaining no moneys on hand at the

close of the fiscal year by carrying same into the next fiscal year. Under an opinion given this Department by the Attorney-General and in which I fully concur, it was held that every officer as above mentioned must pay into the State Treasury at the close of each year whatever sums of money he may have on hand over and above his salary and necessary expenses. In pursuance of said opinion, and what I conceive to be the plain mandate of the Constitution, I have caused suit to be entered against such delinquent and am therefore awaiting a judicial construction of the law.

CONCLUSION.

Called to assume the responsible duties of Comptroller on August 2nd, last, by appointment from His Excellency, Austin L. Crothers, Governor, occasioned by the sad demise of my life-long friend, Senator William B. Clagett, I have endeavored to familiarize myself with the important trust reposed.

It has been my pleasure to direct your attention to the most salient features of the financial matters of the State, nevertheless many have necessarily been omitted. The splendid showing herein made has been consummated only through the conscientious work of the various Departments of the State. The freedom with which the Executive power of the government was exercised in vetoing large and unnecessary appropriations has been one of the chief factors towards making the splendid record herein recorded. The demands upon the State Treasury are constantly increasing, especially for the care and maintenance of the insane and feeble minded, for its hospitals, schools, etc. I know of no higher obligation upon the State than these objects but in doing so, due care should be exercised, and I am sure will be, that future appropriations for these and other causes shall not exceed our revenues.

In closing permit me to call your attention to the matter of legislative expenses. For several sessions past the expenses of the General Assembly have nearly reached the \$200,000 mark. These expenses can and should be materially reduced and I earnestly invoke your aid towards this desirable end.

My short experience and observation satisfies me that the very large salary list which I have had to pay monthly, or to allow to

public officials when they make their reports, while larger than they should be, is not caused by the payment of too much money for the work done, but by reason of the fact that there are too many useless positions and too many people who are drawing pay and doing no work. The cost of living is higher than it was and the reduction should be in offices and not in pay.

I cannot close this report without expressing my sincere appreciation of the courtesy and assistance given me by the Governor and the State Treasurer in the performance of my duties, and I can truthfully say that the Executive has aided me, as has the Attorney-General, in all my efforts to enforce the obligations of corporations and others to the State, and I have always found the present Treasurer acting with an eye single to the protection of the Treasury.

I made no changes in my office, only filling one vacancy, and I can say at the end of my term I acted wisely, as I have found all of them honest, reliable and attentive, and that the counsel and advice of Mr. Harry J. Hopkins, chief clerk, has been most valuable to me and to the State, as it has always been to my predecessors in office.

Respectfully submitted,

CHARLES H. STANLEY,

Comptroller of the Treasury.
